Brief History of the Monthly Catalog

The Printing Act of 1895 specified two products for the description and collocation of public documents.

- The Catalogue of the Public Documents of the [...] Congress and of All Departments of the Government of the United States (Document Catalogue) fulfilled the requirement for a "comprehensive index of public documents" to be prepared "at the close of each regular session of Congress."

- The Monthly Catalog of United States Government Publications (MoCat) met the stipulation for a "Monthly Catalogue ...which shall show the publications printed during a month, where [those publications are] obtainable, and the price thereof."

Thus, the original relationship was a current awareness listing (in the MoCat) and a permanent, authoritative, and comprehensive catalog (in the Document Catalogue).

In 1947, the cost and perennial difficulty of compiling the Document Catalogue led the Superintendent of Documents to recommend to the Joint Committee on Printing that the Catalogue be discontinued after the edition for 1940 was completed. The MoCat began to serve in the capacity of a single source for bibliographic information, fulfilling the requirements of the 1895 act, which stand to this day in 44 USC §1710-1711.

From 1895 until 1976, the Government Printing Office (GPO) arranged and described documents according to its own standards and systems. A major revision of the appearance and functionality of the MoCat took place in July 1976. GPO catalogers began producing machine-readable cataloging records (MARC) conforming to Anglo-American Cataloging Rules (AACR), Library of Congress Subject Headings (LCSH), the Ohio College Library Center (later the Online Computer Library Center, OCLC) bibliographic standards and formats, and other applicable national level standards. Since that time, GPO has gradually expanded the emphasis of its cataloging and indexing program from the production of a single printed product to the creation and maintenance of a database of high-quality, standards-based bibliographic records. These records are used by GPO and the library community to support an expanding array of bibliographic control activities.

The bibliographic data used to produce this abridged paper edition is also used to produce a compact disk/read-only memory (CD/ROM) and a World Wide Web (WWW) edition. The Web edition links users directly from bibliographic citations to electronic publications, and assists the public to locate information in depository libraries and through GPO sales. GPO bibliographic data is also available to individual libraries directly from GPO and from a variety of commercial sources for the creation of high quality local databases and public access catalogs.

Catalog Arrangement

Bibliographic entries in the Monthly Catalog (MOCAT) are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number—a two-digit prefix representing the catalog year, followed by a sequential number beginning with "1" in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries in this catalog may be accessed by title keyword index (alphabetical list of truncated titles, arranged by important words selected from publication titles).

Please consult the CD-ROM version of the MOCAT for indexing accessed by:

- Keyword
- Author
- Title
- Series/Report Number
- Subject
- Stock Number
- Contract Number
- Classification Number

Indexes in the CD-ROM version of the Monthly Catalog will cumulate from the beginning of the calendar year through the current issues.

Abbreviations

Abbreviations used in the bibliographic entries are those described in the Anglo-American Cataloguing Rules, 2nd ed, and the GPO Classification Manual: A Practical Guide in the Superintendent of Documents Classification System.

Order Information

The Superintendent of Documents (SuDocs) of the U.S. Government Printing Office (GPO) is authorized by law to sell copies of Government publications. SuDocs currently sells more than 10,000 titles, just a small portion of the publications issued each year by the Federal Government. Prices for publications sold by the Superintendent of Documents are established in accordance with Title 44 of the United States Code. All prices include cost of regular shipping and handling.

SuDocs offers several convenient ways to order—by mail, phone, fax, online, telex, and through 24 U.S. Government Bookstores. (Bookstore listing on separate page.) To order—

Phone: (202) 512-1800, 7:30 a.m. – 4:30 p.m. EST
Fax: (202) 512-2250, 24 hours a day
Go online:

Mail: Superintendent of Documents
PO Box 371954
Pittsburgh PA 15250–7954
Telex: (710-822-9413); USGPO WSH.

Customers on DIALOG system may transfer their orders via DIALORDER.

An order form is included in the Preliminary Pages of this catalog. Photocopies of this form are acceptable. All orders should indicate the complete title, 12-digit GPO stock number and price for each title requested, and payment. Checks and money orders should be payable to the Superintendent of Documents. Orders charged to a VISA, MasterCard or Discover/NOVUS account should include the account number and expiration date. Orders also may be charged to a Superintendent of Documents deposit account.

If a GPO stock number does not appear in a Monthly Catalog text entry or if it does not say "For sale by the Superintendent of Documents," the publication cannot be ordered from the Government Printing Office.

All sales are final. Product returns are accepted only when an error was made by GPO. To report a problem or request return authorization, please contact the appropriate service section.

Federal Depository Library Program

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1,350 public, academic, State, and law libraries serve as information links with the Federal Government by maintaining collections of Government publications. Collections are tailored to local needs and are open to the public. Fifty-three of the libraries are designated as regional depository libraries with responsibility for permanently retaining material and for providing inter-library loan and reference services in their regions.

Copies of documents no longer available through the GPO sales program can usually be found in regional depository collections.

To determine which depository libraries have selected publications listed in this catalog, use the Locator Service at the Superintendent of Documents World Wide Web site, **http://www.access.gpo.gov/su_docs/dpos/adpos400.html.**
